In the Matter of

**DECISION**  
Case #: CWA - 207516

---

**PRELIMINARY RECITALS**

Pursuant to a petition filed on January 26, 2023, under Wis. Admin. Code § HA 3.03, to review a decision by the Bureau of Long-Term Support regarding Medical Assistance (MA), a hearing was held on April 26, 2023, by telephone.

The issue for determination is whether the respondent correctly denied a requested budget amendment for an in-home care provider for petitioner.

There appeared at that time the following persons:

**FINDINGS OF FACT**

1. Petitioner is a resident of Green County. but is a Dane County resident for Medicaid-related purposes.
2. Petitioner is eligible for IRIS with TMG as her consulting agency.
3. Petitioner's most recent LTCFS dated December 30, 2022, establishes that petitioner meets the requirements for both the physical disability and Federal DD target groups. Exhibit R-C. Her diagnoses include Rett Syndrome, epilepsy, global development delay, gastrostomy, scoliosis, muscle weakness, postural imbalance, astigmatism, and accommodative esotropia. *Id.* Petitioner requires assistance with all activities of daily living, as well as overnight supervision (caregiver does not get six hours of uninterrupted sleep). [REDACTED]. *Id.*
4. Petitioner resides at [REDACTED], a multi-unit apartment complex in [REDACTED], Wisconsin, with a roommate, and both require home health care.
5. Until January 27, 2023, petitioner's in-home supportive home care was handled by an agency named Best Life, which charged a daily rate for petitioner's care in the amount of \$283.50. Exhibit R-A1. Best Life gave notice in December, 2022 that it was ending its contract as of January 27, 2023 primarily because it was unable to maintain appropriate staffing at [REDACTED].
6. TMG, along with petitioner's family, began a search for a replacement home-health agency. The only agency they could find that would cover the types of services needed by the clients in the [REDACTED] area was For Pete's Sake (FPS), but FPS's quoted rate was \$438.39 per day for petitioner.
7. TMG submitted a budget amendment request, on petitioner's behalf, seeking approval of FPS' daily rate. By a letter dated February 17, 2023, the Bureau of Programs and Policies (BAPP) denied the request as it determined that the requested rate is not cost effective, as the requested rate exceeds the standard rate in the local area.

### DISCUSSION

The IRIS program was developed pursuant to a Medical Assistance waiver obtained by the State of Wisconsin, pursuant to section 6087 of the Deficit Reduction Act of 2005 (DRA), and section 1915(c) of the Social Security Act. It is a self-directed personal care program.

The federal government has promulgated 42 C.F.R. §441.300 - .310 to provide general guidance for this program. Those regulations require that the Department's agent must assess the participant's needs and preferences (including health status) as a condition of IRIS participation. *Id.*, §441.301(c)(2). The Department's agent must also develop a service plan based on the assessed needs.

The IRIS program is a Medical Assistance long term care waiver program that serves elderly individuals and adults with physical and developmental disabilities. IRIS is an alternative to Family Care, Partnership, and PACE—all of which are managed long term care waiver programs. The IRIS program, in contrast, is designed to allow participants to direct their own care and to hire and direct their own workers. The broad purpose of all of these programs, including IRIS, is to help participants design and implement home and community-based services as an alternative to institutional care. See *IRIS Policy Manual*, §1.1B.

It is the petitioner's burden to prove the need for the higher rate. I note that the BAPP decisionmaker did not attend the hearing in this matter, and thus I have only the BAPP's written reason for denial; the denial was rebutted thoroughly by the petitioner's evidence. Argument provided by Attorney Olson established

petitioner's qualification for services and IRIS regulations and policy covering provision of said services. Testimony from both Ms. [REDACTED] of TMG and from petitioner's father established that they have been able to find no other providers to handle the petitioner's necessary cares in [REDACTED], and that FPS has been providing appropriate and necessary care. TMG established that the rate request is, indeed, higher than DHS has previously approved, but I also am aware of the difficulties in finding qualified caregivers in the current market. Again, FPS was noted by a TMG representative to be the only provider serving the [REDACTED] community at this time. While basing its denial on a cost-effectiveness argument, the respondent has established no other provider in the area to permit a proper analysis of cost-effectiveness. I thus conclude that the requested Budget Amendment shall be approved, retroactive to the original requested start date.

### CONCLUSIONS OF LAW

The requested rate for supportive home care for the agency FPS is medically necessary and cost effective as no other alternatives have been found, and the respondent has not identified a more cost-effective alternative.

**THEREFORE, it is**

**ORDERED**

That the matter be remanded to TMG with instructions to take the necessary action to request a new Budget Amendment to provide for supportive home care from For Pete's Sake at the requested daily rate of \$438.39, and the BAPP shall approve the request, retroactive to the original requested start date of January 28, 2023. The agency shall do so within 10 days following issuance of this decision.
